Posters by Mucha

We're Back from our Trip to Europe

As mentioned previously, June was a travel month for the Indian River Poster Company. The entire IRPC family was in Astrakhan, Russian Federation for the wedding of Nicholas Gotwalt and Valentine Plavinskya. Russia weddings are great affairs and we'll share stories and photos next time you are in the gallery.

In addition to Russia, Mike and Nancy went to the Czech Republic, Austria, and Slovakia. In the Czech Republic we spent our time in Prague; what a wonderful city, rich in history and in art. Of particular interest was the Alphonse Mucha museum.

Mucha is well known for his Art Nouveau posters of the early 20th century, but less known is the balance of his work including the massive Slav Epic, a series of 20 wall sized paintings telling the history of the Slav peoples. He designed the currency and postage for Czechoslovakia when that country emerged after WWI and his stained glass window in St. Vitus Cathedral is beyond description.

Mucha is the most collectible of vintage poster artists and his work always commands the highest prices. Full size works by Mucha usually come to market via auctions. Smaller size items like Maitres de L'affiche, menus, book plates, and advertising are more readily available. Contact us for assistance in acquiring works by Mucha.

Vintage Poster Sale

The month of July is highlighted by our annual gallery poster sale. All posters are on sale with savings from 10% - 20%. Custom framing of any poster sold in July includes a 10% discount.

It's beach season and we have a great selection of beach posters that would look great in a coastal home.

For those with a patriotic flair, we have several great posters from World War I.

For the aging hippie, we have several fantastic rock posters featuring The Byrds, Jefferson Airplane and others.

Product posters are always popular and we have a fine selection of oversize posters.

Stop by or visit our website.
